### Oyster retailing at National Rail stations

#### TfL rail operators: London Overground

All stations have Oyster enabled ticket machines. Most issue Oyster cards and sell Travelcard season tickets and can top up pay as you go on Oyster at ticket offices. The following London Overground stations do not have Oyster retail capability at ticket offices:

Bethnal Green	Cambridge Heath	Clapham High Street	Crouch Hill	Emerson Park
Harringay Green Lanes	Leyton Midland Rd	Leytonstone High Rd	London Fields	South Tottenham
Upper Holloway	Walthamstow Queens Rd	Wandsworth Road	Wanstead Park	Woodgrange Park

#### TfL rail operators: TfL Rail

All stations issue Oyster cards, sell Travelcard season tickets and can top up pay as you go on Oyster at ticket offices and have Oyster enabled ticket machines, except Hayes and Harlington and stations between Iver and Reading.

\* National Rail stations where Oyster cards are available.

From 23 February 2020, a £5.00 charge (and no deposit) for new Oyster cards is payable. If a card is still in use after 12 months, £5.00 pay as you go will be credited to that card via Faster Universal Load (FUL). After 23 February 2020, some NR stations will still have reserve stocks of pre-issued Oyster cards that already have a £5.00 deposit. These stations will continue to issue Oyster cards with a £5.00 deposit after 23 February 2020 until stock runs out. If a deposit has been paid, it can be refunded as now at any time.

<b>99</b>	Transaction timed out	Reader takes too long to read the card	Customer should touch reader again/try another reader

When an issue has been resolved and a payment card is re-approved, it can take up to 30 minutes for all readers across the network to be updated. If the customer wants to travel immediately they should be advised to use another method of payment.

## Glossary of contactless payment card terms

**BIN:** Bank Identification Number - The first four to six digits of a credit, debit, charge or pre pay card. The bank identification number identifies the institution issuing the card.

**Card issuer:** A card issuer is a bank or financial institution that provide “card association” branded payment (credit, debit, prepaid or charge) cards. Card association brands include Visa, MasterCard and American Express.

**Charge card:** A credit card for use with an account which must be paid in full when a statement is issued.

**Chip and PIN:** The word "chip" refers to a computer chip embedded in most European issued credit and debit cards; the word PIN refers to a Personal Identification Number supplied by the card holder.

**CVV:** The Card Verification Value (CVV) is a 3 digit number on the signature strip of Visa, MasterCard and Discover Credit and Debit cards. On American Express cards it's a 4 digit number and is shown on the front of the card.

**Joint account:** Is a bank account held by more than one person, each individual having the right to deposit and withdraw funds.

**Mobile payments:** customers can add payment cards to their mobile phones and use them to travel where pay as you go is accepted. Current schemes accepted on our services are:

- Apple Pay (using an iPhone or Apple watch);
- Fitbit Pay
- Garmin Pay
- Google Pay
- Samsung Pay

**PAN:** Primary Account Number (PAN) is the long card number on the front of credit, debit and charge cards.

**Prepaid card:** A prepaid card is a payment card that is loaded with money. A prepaid card looks like any normal credit or debit card, with a card number, signature strip and company branding. Prepaid cards don't provide credit, just the value up to the amount pre-loaded.

**RID:** A Revenue Inspection Device (RID) is carried by Revenue Inspectors to check that contactless payment and Oyster cards being used for travel are valid.

**V Pay:** V PAY is a chip-only, PIN based, European debit product offered by some European banks.

Although similar, there are some important differences to note between Contactless Payment cards and Oyster cards:

Contactless payment cards	Oyster
