The works will take place during a five-week blockade from Saturday 31 October – Sunday 06 December 2020.

The following changes apply from 22.00 Sunday 06 December 2020.

EXISTING TRACK LAYOUT

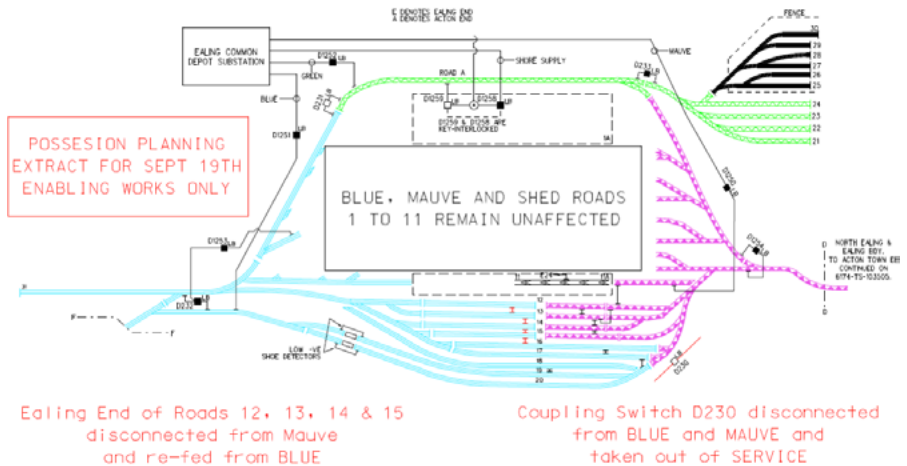

PROPOSED TRACK LAYOUT

Power

Ealing Common depot EXISTING power arrangements (as of 19.00 Saturday 19 September 2020)

A summary of the alterations are as follows:

- The Mauve feeder cables from traction isolation switch D1250 will be disconnected from road 11 and reconnected to the depot access road Acton side of pts 234.
- Install and commission Blue/ Mauve coupling switch D230 in new position adjacent to 20Rd.
- Install and commission traction isolation switch D1255. This switch together with existing switch D1254 will allow possessions of the Mauve section to be split into two independent 'North and South' sub-sections. The existing traction isolation switch D1254 isolates (North) roads 1 – 8 Mauve and the mauve access to road A (Green section). Traction isolation switch D1255 will isolate (South) Roads 9 to 20 Mauve and the mauve access to Blue section.
- Reverting the feeding of west end berths of Roads 12 – 15 back from Blue section to Mauve section.
- Amend the feeding of Roads 16 -20 from the east of the crosstrack walkway to change 224pts, 223pts, 222pts and 221pts to be fed from Mauve section and removed from Blue section, improving the future maintainability of these sets of points.

Service control managers are responsible for ensuring information concerning speed restrictions is maintained throughout service control locations as appropriate.

LU bridge, underbridge and structure restrictions

Information on structure restrictions can be found on the Rule Book team SharePoint site. <https://transportforlondon.sharepoint.com/sites/TMSRuleBook>

Passenger loading only refers to a load not in excess of ½ tonne (500 kg) on an area 1m x 1m², including for example such items as cable drums, large plant, and storage of construction materials.

Any queries on this will be clarified by Richard McKoy 0207 126 3998 Auto: 63998. Deviations from these restrictions and prohibitions will only be permitted by written authority of the relevant civil asset engineer.
