Track, signalling and equipment alterations

District line

Track Programme works at Ealing Common depot

As part of the Track Programme works at Ealing Common depot, the existing track layout will be remodelled and power arrangements amended at the east-end of Ealing Common depot, on the District line. The existing Bull Head P&C designs will be replaced with those in Flat Bottom Rail.

The works will take place during a five-week blockade from Saturday 31 October – Sunday 06 December 2020.

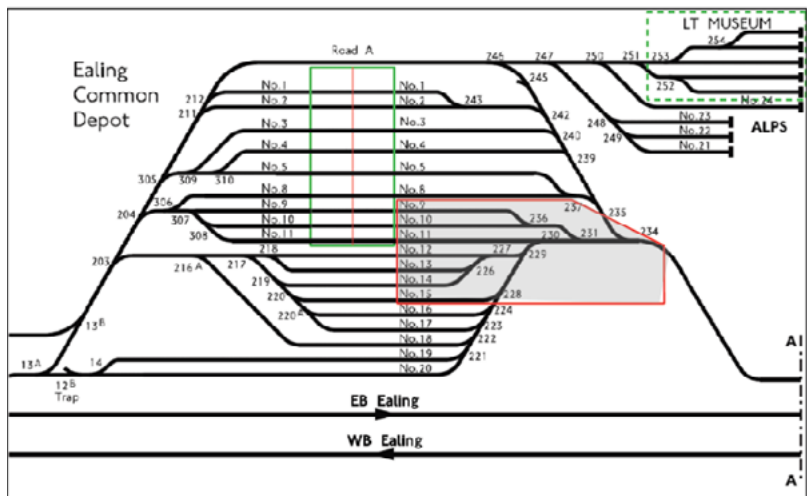

The following changes apply from 22.00 Sunday 06 December 2020.

Track

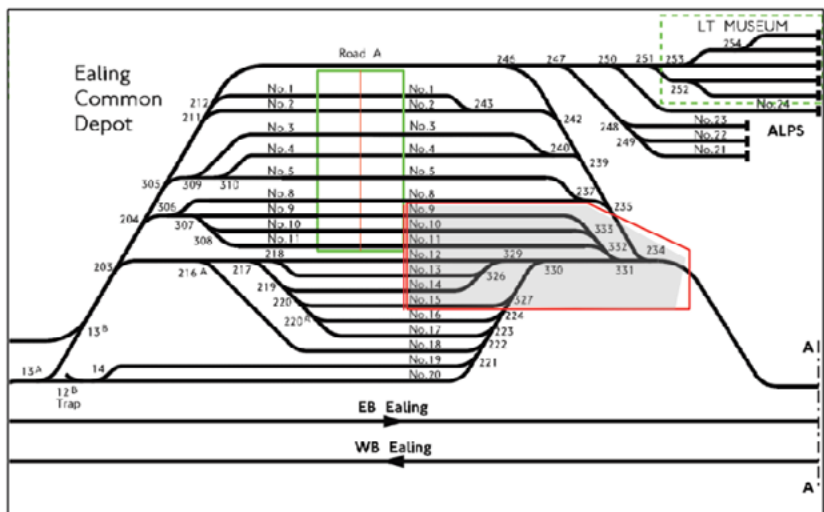

A summary of the alterations are as follows and shown in the diagrams (shaded area) below:

- Full ballasted track renewal and remodelling of the east end of Ealing Common depot P&C from Road 9 to Road 15, in flatbottom rail with full depth LU56V switches on composite bearers and concrete sleepers in the plain line sections.
- Existing points 226, 227, 228, 229, 230, 231 and 236pts will be realigned and renamed. The new point numbers will be as follows: 326, 327, 329, 330, 331, 332 and 333pts. 234pts will remain as existing.
- New points will all remain handworked.
- Track Asset Walkways are to be modified to match the new track alignment.

EXISTING TRACK LAYOUT

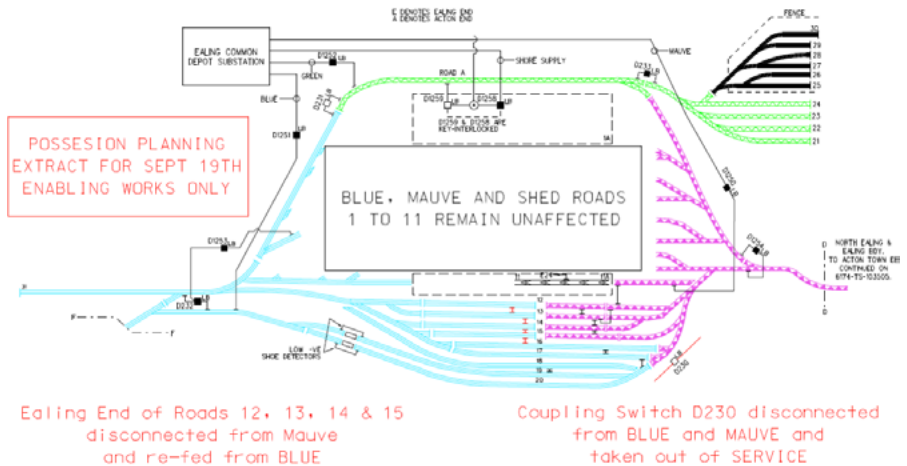

PROPOSED TRACK LAYOUT

Power

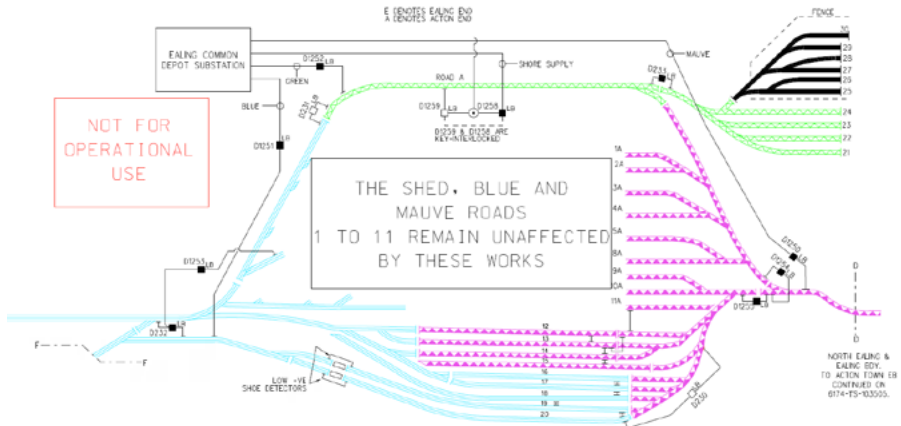

Ealing Common depot EXISTING power arrangements (as of 19.00 Saturday 19 September 2020)

A summary of the alterations are as follows:

- The Mauve feeder cables from traction isolation switch D1250 will be disconnected from road 11 and reconnected to the depot access road Acton side of pts 234.
- Install and commission Blue/ Mauve coupling switch D230 in new position adjacent to 20Rd.
- Install and commission traction isolation switch D1255. This switch together with existing switch D1254 will allow possessions of the Mauve section to be split into two independent 'North and South' sub-sections. The existing traction isolation switch D1254 isolates (North) roads 1 – 8 Mauve and the mauve access to road A (Green section). Traction isolation switch D1255 will isolate (South) Roads 9 to 20 Mauve and the mauve access to Blue section.
- Reverting the feeding of west end berths of Roads 12 – 15 back from Blue section to Mauve section.
- Amend the feeding of Roads 16 -20 from the east of the crosstrack walkway to change 224pts, 223pts, 222pts and 221pts to be fed from Mauve section and removed from Blue section, improving the future maintainability of these sets of points.

Ealing Common depot FINAL power arrangements as of 22.00 Sunday 6 December 2020

Circle, District, Hammersmith & City, Metropolitan lines

Changes to the Connect Train Radio

Starting from Sunday 06 December to Friday 11 December 2020 and as per previous CBTC commissionings, new Connect Radio Talkgroups will start to be introduced in preparation for CBTC operations between Euston Square, Monument and Stepney Green.

Train Operators will see the following new Talkgroup IDs displayed on the Train Radio Control Head:

- SG12 BBN-MGT
- SG13 LVT-ALD
- SG13 TWH-ADE
- SG14 BKF-MMT
- SG15 WPL-BBB

New lineside Connect Radio Tags will be installed in the area and the Connect Radio Dispatchers at Earls Court Control Room, the Metropolitan line Signalling Centre and Whitechapel Signal Cabin will be updated to include new Roles that will enable the Signallers' Talkgroups to be over and backed between Hammersmith SCC and the legacy service control locations.

At this stage there will be no change to the use of Hand Portable Radios in the area.

For further information please contact Shaun Reino, Operational Interface Manager on 07739 432 382.

Northern line

Northern line extension

As part of Northern line extension project the tunnel ventilation system commissioning is due to start at the Kennington Park shaft site.

This will be the first time that the ventilation fans have been turned on and tested.

Due to the condition of the existing network, testing of the fans has the potential to disturb dust in the tunnels and stations in the vicinity of the new Northern line extension. This may be visible to station staff, members of the public and train drivers.

The operation of the fans will be controlled to minimise this impact, however some dust and air movement may be visible during both engineering and traffic hours operation – both within the tunnel areas and Kennington station.

To limit the impact the first phase of works will be completed during engineering hours.

This will be followed by further works during traffic hours as noted below.

The commissioning of these fans is a new addition to the existing network and will change the air flow in the tunnels, this is expected and normal for this type of work.

Before any test running of the fans is undertaken, both the stations team at Kennington station and the Northern line Service Controller will be notified.

After the completion of any test running of the fans, again both the stations team at Kennington station and the Northern line Service Controller will be notified

The works are planned to take place

- Friday 11 and Saturday 12 December 2020 during engineering hours
- Monday 14, Tuesday 15, Wednesday 16 and Thursday 17 December 2020 during traffic hours.

Restrictions

Temporary and emergency speed restrictions

2

New Temporary Speed Restrictions (TSRs) will be published in the Traffic Circular for two weeks only.

Any removal of a speed restriction will be advertised for two weeks running up to its removal.

Emergency speed restrictions which are in force for longer than a week will be treated as TSRs.

Train operations managers must ensure that temporary and emergency speed restrictions are placed in the late notice case and the permanent notice case as appropriate.

Service control managers are responsible for ensuring information concerning speed restrictions is maintained throughout service control locations as appropriate.

LU bridge, underbridge and structure restrictions

Information on structure restrictions can be found on the Rule Book team SharePoint site. <https://transportforlondon.sharepoint.com/sites/TMSRuleBook>

click on Traffic Circular and follow the link for bridge and structure restrictions. All new entries are published in the Traffic Circular for publication and on the SharePoint site until withdrawn. Notice of withdrawn entries will also be published in the Traffic Circular for one issue.

Restrictions on underbridges

Various trains are restricted over the following bridges as shown in the table below:

Line / owner	Bridge no.	Location	Line / owner	Bridge no.	Location
Central BCV	U16B	Ruislip depot – West Ruislip end underbridge supporting Ruislip DT tracks at the West Ruislip end DT entrance – crossing over Metropolitan line – Uxbridge branch. All engineers' trains and mainline rolling stock restricted to 5 mph/8 kph.	District MR SSL	D240	Both midway between Southfields and Wimbledon Park – 650m south of Southfields station (Revelstoke Road) no mainline rolling stock rated above Network Rail classification RA8 to cross this structure.

Line / owner	Bridge no.	Location	Line / owner	Bridge no.	Location
District SSL	D235	Both East Putney to Southfields – 380m north of Southfields (Granville Road) no mainline rolling stock rated above Network Rail classification RA8 to cross this structure.	Jubilee	MR33B	North of Wembley Park SB Metropolitan fast and SB Metropolitan local only. Steam locomotives are restricted to 10 kph over the bridge. The SB Jubilee, NB Jubilee, NB Metropolitan local and NB Metropolitan fast do not pass over this bridge and are unaffected.

All engineers' trains to pass over the following structures at 5 kph until further notice.

No restriction to passenger trains.

Note – restrictions only apply to the Piccadilly line and not the District line which may run over the same bridge – it is an issue associated with the longitudinal timbers supporting the track.

Line	Bridge	Direction
Piccadilly tube lines	D83	Piccadilly line eastbound fast between Ravenscourt Park and Hammersmith (crossing over public highway Cambridge Grove)

Rolling stock restrictions other than bridges

Location	Line	Restriction
Neasden depot wheel monitoring equipment building	Metropolitan SSL	Prohibition on all rolling stock with a distance of less than 15.7m between both outer axles
North Acton	Central BCV	Platform 1, ALL sub-surface stock restricted to 10 mph
Neasden depot road 36 high level cleaning platforms	Metropolitan SSL	Prohibition on vehicles other than S stock (8 car or 7 car trains) entering this road

Loading restrictions on structures other than underbridges

Passenger loading only refers to a load not in excess of ½ tonne (500 kg) on an area 1m x 1m², including for example such items as cable drums, large plant, and storage of construction materials.

Any queries on this will be clarified by Richard McKoy 0207 126 3998 Auto: 63998. Deviations from these restrictions and prohibitions will only be permitted by written authority of the relevant civil asset engineer.

2

New restrictions added

Location	Line	Asset
Acton Town	Piccadilly JNP	Platform 1 (station ref 2/261, platform 2 (station ref 2/262), platform 3 (station ref 2/263 and platform 4 (station ref 2/264)
All Surface Stations	All lines	Lighting Standards All hinged lighting standards supporting London Underground roundels shall not be lowered without an approved method statement being accepted by the Civil Asset Maintenance office.

The master list of restrictions on structures other than underbridges has been updated on sharepoint and can be found at the following link:

Christmas staff travel 2020

This section contains important information regarding staff travel facilities over the Christmas period.

Normal booking facilities will be suspended on the following dates:

- The night of Thursday 24 December 2020
- All day Friday 25 December 2020
- All day Saturday 26 December 2020
- The morning of Sunday 27 December 2020.

The CABS booking system will close at 21:00hrs on 23 December 2020 and will remain closed until 09.00 on Sunday 27 December 2020.

All staff taxis operating on these dates must be pre-booked. Staff requiring taxis on the above dates must follow the procedure below in respect of these bookings:

- each Area / Centurion manager must appoint a designated Christmas staff taxi coordinator within their group. They will act as a single point of contact between each group and the Xmas taxis team at the LUCC. Your manager will advise you who this is.
- provide the following details to your nominated Christmas staff taxi co-ordinator
- the date(s) that you require the taxi and the relevant schedule number, if applicable
- your name and your employee number
- taxi pick up point, and taxi drop off point as well as your duty start/finish time
- it is advised that you provide a mobile phone number in case the LUCC needs to contact you on the day the taxi operates.

All requests must be entered into the Xmas taxi online booking system by the coordinator by **17.00 on Wednesday 16 December 2020**:

- confirmation of bookings will be issued to each Christmas taxi co-ordinator from 12.00 Monday 21 December 2020
- the Christmas taxi co-ordinator must then make sure that staff who requested taxis are fully aware of the details of the confirmed booking and their taxi schedule
- cancellations of Christmas staff taxis should be emailed to the LUCC Christmas staff taxi team on xmastaxis@tfl.gov.uk (until 17.00 Thursday 24 December 2020)
- enquiries and cancellations regarding Christmas staff taxis on the days they run should be made in the normal way to the LUCC staff taxi desk on 1802 or 0207 918 7309.

IMPORTANT NOTE REGARDING SCHEDULED & UNSCHEDULED “SPECIAL TAXIS”

Staff taxis are supplied to replace non running train service.

Unscheduled taxis can only be booked if staff have no other means of travelling to and from work.

Bookings will only be accepted from **normal** TfL pick up points or from mainline stations.

Bookings to / from home addresses will not be accepted.

Other means of getting to work:

Car, motorbike and bicycle users will be paid a mileage allowance if they make their own way to work. Ask your taxi coordinator or employing manager for details or use the link below for guidance:

<https://transportforlondon.sharepoint.com/sites/Instructions-and-guidance-people-performance-and-rewards/SitePages/Business-travel-and-accommodation.aspx>

Acceptance of Train Operating Company tickets and passes on LU services during planned engineering works

Acceptance of Train Operating Company tickets and passes on LU services during planned engineering works.

London Underground will accept all National Rail paper tickets from the relevant Train Operating Companies listed below as per the dates, times and stations shown. TOC staff passes should also be accepted where indicated. Customers using Oyster PAYG will be required to pay the appropriate fare for the journey they are making. Tickets being accepted will generally not work the automatic gates so the holders should be passed through the manual gate following a visual check for validation.

A.O. Power & Electrical ac cables maintenance

A.O. Power & Electrical are carrying out maintenance of 400 V LVAC cables on the Piccadilly line. Subsequently, there will be an interruption to lighting & power supplies during the engineering hours shifts on the below dates and locations:

- Acton Town station - Monday 30 November 2020
- Bethnal Green Sub to Bethnal Green Station - Monday 30 November 2020
- Alperton station - Tuesday 01 December 2020
- Farringdon TX Room - Tuesday 01, Wednesday 02 and Thursday 03 December 2020
- Sudbury Hill station - Wednesday 02 December 2020
- Moorgate - Monday 07 and Wednesday 09 December 2020
- Moorgate to Barbican - Tuesday 08 December 2020
- Moorgate to Tower Hill - Thursday 10 December 2020
- Northumberland Park Depot Substation - Saturday 12 December 2020.

Platform temperature and humidity monitoring

From Monday 23 November 2020 for two weeks, staff from TfL Vehicle Engineering – Technical Services will be on All Sub-Surface & Tube line platforms to download information from “Tinytag” loggers using handheld tablet PC’s. This work will be undertaken during traffic hours.

3

Please note that under LU Rule Book concession CR08401, these staff are not required to book in as visitors at each station due to the brevity of the task. The time per logger is expected to be a few minutes, so no contact is required to be made with the station staff.

Blackhorse Road station – E I switchroom changeover panel fault investigation

During engineering hours on Thursday 10 December 2020, A.O. Power & Electrical are carrying out an inspection of the E I switchroom changeover panel at Blackhorse Road station. As a result, all LU 400 V ac supplies will not be available.
